JOURNAL OF PATHOLOGY, VOLUME 124

INDEX OF SUBJECTS

PAGE

ALLOGRAFTS, scanning electron-microscope studies of the endothelium of aortic allografts in the rabbit: effect of azathioprine, prednisolone and promethazine on early cellular invasion . 1
ALUMINIUM, cytotoxic effects of some aluminium and zirconium compounds on guinea-pig peritoneal macrophages and skin fibroblasts 51
ANEURYSM, cerebral, in the hypertensive rat 7
ANTI-INFLAMMATORY DRUGS, in-vivo effects on granulocyte emigration in the rabbit skin collection chamber . . . 85
AORTA, allografts in the rabbit: scanning electron-microscope studies of the endothelium for effect of azathioprine, prednisolone and promethazine on early cellular invasion . . . 1
APE, report of a case of colitis cystica superficialis 23
APUDOMA, duodenal carcinoid with cytoplasmic whorls of micro-filaments . 235
ARTERIOLES after nephrectomy: ultrastructural changes observed in the intestinal submucosa in rats . . 141
ARTHRITIS, RHEUMATOID, ultrastructure of the skin of patients treated with sodium aurothiomalate 77
ASBESTOS and quartz exposure: ultrastructure of the lung in the rat . . 39
ATRIOVENTRICULAR NODE, corpora amylacea in mesothelioma . . . 111
AZATHIOPRINE administered to rabbits: scanning electron-microscope studies of the endothelium of aortic allografts 1

BLEOMYCIN-induced pulmonary changes in mice: ultrastructural study . . 227
BLOOD storage in citrate and phosphate solutions containing half-strength trisodium citrate: cellular and biochemical studies 125
BRAIN micro-aneurysm formation in the hypertensive rat 7

CARCINOID, duodenal, with cytoplasmic whorls of microfilaments . . . 235
CARCINOMA of mouse rectum . . . 35
CAROTID BODY, ultrastructural study of rats living at a simulated altitude of 4300 metres 27
CATS, effects of chronic cervical lymphostasis on regions drained by lymphatics and by prelymphatics . . . 13
CITRATE, cellular and biochemical studies of whole blood storage in citrate and phosphate solutions containing half-strength trisodium citrate . . . 125
COLITIS cystica superficialis: a report of a case in a Barbary ape (*Macaca Sylvana*) 23
COLON, "epithelial" foci of presumptive neural origin in cultures . . . 19
CORPORA AMYLACEA in mesothelioma of the atrioventricular node . . . 111
COW, studies of elastic tissue formation in the developing ligamentum nuchae . 95
CROTALARIA SPECTABILIS pulmonary hypertension in rats: evagination of vascular smooth muscle cells during the early stages 177
CRYPTOCOCCUS NEOFORMANS and macrophages: ultrastructural examination of interaction 103
CYTOTOXICITY, effects of some aluminium and zirconium compounds on guinea-pig peritoneal macrophages and skin fibroblasts 51

DIABETES MELLITUS, neonatal islet cell transplantation: effect on the renal complications 117
N-DIETHYLNITROSAMINE (DEN)-treated Syrian golden hamsters inducing tumours of the nasal olfactory region: ultrastructural study 161
DUODENUM, carcinoid with cytoplasmic whorls of microfilaments . . . 235

ELASTIC TISSUE formation in the developing bovine ligamentum nuchae . . 95
ELECTRON MICROSCOPY, SCANNING, elastic tissue formation in the developing bovine ligamentum nuchea . . 95
endothelium of aortic allografts in the rabbit: effect of azathioprine, prednisolone and promethazine on early cellular invasion 1
interaction between macrophages and *Cryptococcus neoformans* . . . 103

PAGE

ELECTRON MICROSCOPY, TRANSMISSION, bleomycin-induced pulmonary changes in mice 227
carotid body in rats living at a simulated altitude of 4300 metres . . . 27
cell line from an induced carcinoma of mouse rectum 35
duodenal carcinoid with cytoplasmic whorls of microfilaments . . . 235
early vascular changes in the intestine of bilaterally nephrectomised rats . 141
effects of chronic cervical lymphostasis on regions drained by lymphatics and by prelymphatics 13
elastic tissue formation in the developing bovine ligamentum nuchae . . 95
"epithelial" foci of presumptive neural origin in cultures of normal mouse colon 19
epithelioid cell granulomas induced by zirconium in the guinea-pig . . 45
evagination of vascular smooth muscle cells during the early stages of *Crotalaria* pulmonary hypertension . . 177
interaction between macrophages and *Cryptococcus neoformans* . . . 103
lung in the rat following exposure to crocidolites asbestos and quartz . 39
malignant synovioma in three patients and review of the literature . . 149
myogenic cells in Kaposi's sarcoma . 157
N-diethylnitrosamine induced tumours in the nasal olfactory region of the Syrian golden hamster . . . 161
neonatal islet cell transplantation in the diabetic rat: effect on the renal complications 117
skin of patients treated with sodium aurothiomalate 77
ENDOTHELIUM, early vascular changes in the intestine of bilaterally nephrectomised rats 141
scanning electron-microscope studies of the endothelium of aortic allografts in the rabbit: effect of azathioprine, prednisolone and promethazine on early cellular invasion . . . 1
EPITHELIOID CELLS, ultrastructural observations on granulomas induced by zirconium in the guinea-pig . . 45

FERRITIN, early vascular changes in the intestine of bilaterally nephrectomised rats 141
FIBRINOID, ultrastructural changes in the arterioles of the intestinal submucosa observed in rats 20 to 24 hr after bilateral nephrectomy . . . 141
FIBROBLASTS of skin and peritoneal macrophages from guinea-pigs: cytotoxic effects of some aluminium and zirconium compounds 51
elastic tissue formation in the developing bovine ligamentum nuchae . . 95
FIBROSIS, ultrastructural study of bleomycin-induced pulmonary changes in mice . 227
ultrastructure of the lung in the rat following exposure to crocidolite asbestos and quartz 39
FREUND'S ADJUVANT given intravenously: injury and repair of the lung . . 205

GIANT CELLS, ultrastructural examination of the interaction between macrophages and *Cryptococcus neoformans* . . 103
ultrastructural observations on epithelioid cell granulomas induced by zirconium in the guinea-pig 45
GLOMERULI, pathology and pathogenesis of chronic lead nephropathy occurring in Queensland 65
GOLD, ultrastructure of the skin of patients treated with sodium aurothiomalate . 77
GRANULOCYTES, emigration in the rabbit skin collection chamber: in-vivo effects of anti-inflammatory and other drugs 85
GRANULOMA, effects of long-term propranolol on the salivary glands and intestinal serosa of the mouse . . 185
injury and repair of the lung: response to intravenous Freund's adjuvant . 205
ultrastructural observations on epithelioid cell granulomas induced by zirconium in the guinea-pig . . . 45
GUINEA-PIG peritoneal macrophages and skin fibroblasts: the cytotoxic effects of some aluminium and zirconium compounds 51
ultrastructural observations on epithelioid cell granulomas induced by zirconium 45

HAMSTER, ultrastructure of N-diethylnitrosamine induced tumours in the nasal olfactory region 161
HEART, corpora amylacea in mesothelioma of the atrioventricular node . . 111
HISTAMINE, inhibitory effects of high molecular levan on transport across the vascular wall 195
HISTOCHEMISTRY, corpora amylacea in mesothelioma of the atrioventricular node 111
HYPERTENSION, PULMONARY, evagination of vascular smooth muscle cells during early stages 177
HYPERTENSION, SYSTEMIC, cerebral microaneurym formation in the rat . . 7
pathology and pathogenesis of chronic lead nephropathy occurring in Queensland 65

PAGE

HYPOXIA, ultrastructure of carotid body in rats living at a simulated altitude of 4300 metres 27

IMMUNE RESPONSE, effect of interruption of lymphatic drainage from the rat testis 219
IMMUNOFLUORESCENCE, neonatal islet cell transplantation in the diabetic rat: effect on the renal complications . 117
IMMUNOPEROXIDASE TECHNIQUE, ultrastructural examination of the interaction betweenmacrophages and *Cryptococcus neoformans* 103
INFLAMMATION and sensory nerves: evidence for the release of a neurogenic permeability factor by tityustoxin . 165
in-vivo effects of anti-inflammatory and other drugs on granulocyte emigration in the rabbit skin collection chamber . 85
INJURY and repair of the lung: response to intravenous Freund's adjuvant . . 205
INTESTINE of bilaterally nephrectomised rats: early vascular changes . . 141
salivary glands and intestinal serosa of the mouse: effects of long-term propranolol 185
ISLET CELLS transplantation in the diabetic rat: effect on the renal complications . 117

KAPOSI'S SARCOMA, ultrastructural study of myogenic cells 157
KIDNEY, early vascular changes in the intestine of bilaterally nephrectomised rats 141
neonatal islet cell transplantation in the diabetic rat: effect on the renal complications 117
pathology and pathogenesis of chronic lead nephropathy occurring in Queensland 65

LACTATE DEHYDROGENASE activity measured for cell death: toxic effects of some industrially important aluminium and zirconium compounds on guinea-pig macrophages and skin fibroblasts 51
LEAD nephropathy occurring in Queensland: pathology and pathogenesis . 65
LEUCOCYTES, in-vivo effects of anti-inflammatory and other drugs on granulocyte emigration in the rabbit skin collection chamber 85
whole blood storage in citrate and phosphate solutions containing half-strength trisodium citrate: cellular and biochemical studies 125

PAGE

LEVAN, inhibitory effects of high molecular levan on transport across the vascular wall stimulated by histamine . . 195
LIGAMENTUM NUCHAE dissected from a 2-yr-cow, and from foetal calves aged between 90 days and 270 days, within 2 hr of maternal death: studies of elastic tissue formation . . . 95
LUNG, evagination of vascular smooth muscle cells during the early stages of *Crotalaria* pulmonary hypertension . 177
injury and repair of the lung: response to intravenous Freund's adjuvant . . 205
ultrastructural study in the rat following exposure to crocidolite asbestos and quartz 39
ultrastructural study of bleomycin-induced changes in mice 227
LYMPHATICS, effect of interruption of lymphatic drainage from the rat testis . 219
effects of chronic cervical lymphostasis on regions drained by lymphatics and by prelymphatics 13
LYMPHOSTASIS, chronic cervical, induced in cats 13

MACROPHAGE, ultrastructural examination of the interaction between macrophages and *Cryptococcus neoformans* . 103
ultrastructure of the lung in the rat following exposure to crocidolite asbestos and quartz 39
MAST CELLS, ultrastructure of the skin of patients treated with sodium aurothiomalate 77
MESOTHELIOMA of the atrioventricular node 111
MOUSE, cell line from an induced carcinoma of rectum 35
effects of long-term propranolol on the salivary glands and intestinal serosa . 185
" epithelial " foci of presumptive neural origin in cultures of normal colon . 19
inhibitory effects of high molecular levan on transport across the vascular wall stimulated by histamine . . . 195
spontaneous ankle deformity in an inbred strain 189
ultrastructural study of bleomycin-induced pulmonary changes . . 227
MUSCLE, evagination of vascular smooth muscle cells during the early stages of *Crotalaria* pulmonary hypertension . 177
MYOGENIC CELLS in Kaposi's sarcoma: an ultrastructural study . . . 157
NEPHRECTOMY, early vascular changes in the intestine of rats 141
NEPHROPATHY, chronic lead, occurring in Queensland: pathology and pathogenesis 65

PAGE

NERVE, "epithelial" foci of presumptive neural origin in cultures of normal mouse colon 19
sensory nerves and inflammation: evidence for the release of a neurogenic permeability factor by tityustoxin . 165
NOSE, ultrastructure of N-diethylnitrosamine induced tumours in the nasal olfactory region of the Syrian golden hamster 161

OEDEMA, effects of chronic cervical lymphostasis on regions drained by lymphatics and by prelymphatics . . . 13
ORGAN CULTURE, "epithelial" foci of presumptive neural origin in cultures of normal mouse colon 19
OSTEOARTHRITIS, spontaneous ankle deformity in an inbred strain of mouse . 189

PANCREAS, neonatal islet cell transplantation in the diabetic rat: effect on the renal complications . . . 117
PHAGOCYTOSIS, myogenic cells in Kaposi's sarcoma: an ultra-structural study . 157
PLATELETS, whole blood storage in citrate and phosphate solutions containing half-strength trisodium citrate: cellular and biochemical studies . . 125
POISONING, pathology and pathogenesis of chronic lead nephropathy occurring in Queensland 65
PREDNISOLONE and azathioprine administered to rabbits, with aortic allografts observed by scanning electron microscopy 24 hr after transplantation . 1
PROMETHAZINE administered to rabbits with aortic allografts 1
PROPRANOLOL given to thirty-five Porton mice for the study of effects on the salivary glands and intestinal serosa . 185
PULMONARY HYPERTENSION, *Crotalaria*: evagination of vascular smooth muscle cells during the early stages . . 177

QUARTZ exposure: ultrastructure of the lung in the rat. 39
QUEENSLAND, pathology and pathogenesis of chronic lead nephropathy occurring in 65

RABBITS, injury and repair of the lung: response to intravenous Freund's adjuvant 205
in-vivo effects of anti-inflammatory and other drugs on granulocyte emigration in skin collection chamber . . 85
scanning electron-microscope studies of the endothelium of aortic allografts: effect of azathioprine, prednisolone and promethazine on early cellular invasion. 1
RATS, cerebral micro-aneurysm formation following induction of hypertension in early life 7
early vascular changes in the intestine following bilateral nephrectomy. . 141
effect of interruption of lymphatic drainage from the testis 219
evagination of vascular smooth muscle cells during the early stages of *Crotalaria* pulmonary hypertension . . 177
inhibitory effects of high molecular levan on transport across the vascular wall stimulated by histamine . . . 195
neonatal islet cell transplantation in diabetes: effect on the renal complications 117
ultrastructure of carotid body after living at a simulated altitude of 4300 metres 27
ultrastructure of the lung following exposure to crocidolite asbestos and quartz 39
RECTUM, carcinoma induced in mice: tissue culture cell line established . . 35
RED CELLS, whole blood storage in citrate and phosphate solutions containing half-strength trisodium citrate: cellular and biochemical studies . . 125
REPAIR of the lung: response to intravenous Freund's adjuvant 205

REVIEWS OF BOOKS—
Pathology of tumours of the nervous system, 4th edition by Russell, D. and Rubinstein, L. (London: Arnold) . 63
Muir's textbook of pathology, 10th edition. Edited by Anderson, J. R. (London: Arnold) 63
Ultrastructural pathology of the cell by Ghadially, F. N. (Butterworth) . . 63

SALIVARY GLANDS and intestinal serosa of the mouse: effects of long-term propranolol 185
SCHWANN CELL, "epithelial" foci of presumptive neural origin in cultures of normal mouse colon 19
SCORPION (*TITYUS SERRULATUS*), sensory nerves and inflammation: evidence for the release of a neurogenic permeability factor by tityustoxin . . 165
SKIN, cytotoxic effects of some aluminium and zirconium compounds on guinea-pig peritoneal macrophages and skin fibroblasts 51
in-vivo effects of anti-inflammatory and other drugs on granulocyte emigration in the rabbit skin collection chamber. 85
ultrastructure of the skin of patients treated with sodium aurothiomalate . 77

PAGE

SODIUM AUROTHIOMALATE treatment for rheumatoid arthritis: skin biopsies examined with the electron microscope 77
STREPTOZOTOCIN used to make rats diabetic: neonatal islet cell transplantation: effect on the renal complications . 117
SYNOVIOMA, malignant: electron microscopical findings in three patients and review of the literature . . . 149

TESTIS, rat: effect of interruption of lymphatic drainage 219
TITYUSTOXIN, venom of the scorpion *Tityus serrulatus* and its active principle tityustoxin (TsTX) kept in contact with the peripheral cut end of the sciatic or saphenous nerve of the rat, inducing inflammatory reactions in the areas supplied by the nerves . . . 165
TRYPAN BLUE, inhibitory effects of high molecular levan on transport across the vascular wall stimulated by histamine 195
TUMOURS, ANIMAL, INDIVIDUAL, ultrastructure of N-diethylnitrosamine induced tumours in the nasal olfactory region of the Syrian golden hamster . . 161

PAGE

TUMOURS, HUMAN, INDIVIDUAL, duodenal carcinoid with cytoplasmic whorls of microfilaments 235
malignant synovioma: electron microscopical findings in three patients and review of the literature . . . 149
myogenic cells in Kaposi's sarcoma: an ultrastructural study . . . 157

URAEMIA, pathology and pathogenesis of chronic lead nephropathy occurring in Queensland 65

VASCULAR PERMEABILITY, inhibitory effects of high molecular levan on transport across the vascular wall stimulated by histamine 195
sensory nerves and inflammation: evidence for the release of a neurogenic permeability factor by tityustoxin . 165

ZIRCONIUM, cytotoxic effects of some aluminium and zirconium compounds on guinea-pig peritoneal macrophages and skin fibroblasts 51
ultrastructural observations on epithelioid cell granulomas induced in the guinea-pig 45

INDEX OF AUTHORS

PAGE

ARONSON, M., PAPADIMITRIOU, J. M., ROBERTSON, T. A., KLETTER, YEHUDITH and WALTERS, M. N.-I., an ultrastructural examination of the interaction between macrophages and *Cryptococcus neoformans* 103

BADENOCH-JONES, P., TURK, J. L. and PARKER, DARIEN, ultrastructural observations on epithelioid cell granulomas induced by zirconium in the guinea-pig 45

BADENOCH-JONES, P., TURK, J. L. and PARKER, DARIEN, the cytotoxic effects of some aluminium and zirconium compounds on guinea-pig peritoneal macrophages and skin fibroblasts . 51

BERRY, C. L. and LEE, J., cerebral microaneurysm formation in the hypertensive rat 7

BETZ, R. D., BROOKS, R. E. and MOORE, R. D., injury and repair of the lung: response to intravenous Freund's adjuvant 205

BOREL, J. F. and FEURER, CAMILLE, in-vivo effects of anti-inflammatory and other drugs on granulocyte emigration in the rabbit skin collection chamber . 85

BOWYER, D. E. and REIDY, M. A., scanning electron-microscope studies of the endothelium of aortic allografts in the rabbit: effect of azathioprine, prednisolone and promethazine on early cellular invasion 1

BROGHAMER, W. L. JR. and CARSTENS, P. H. B., duodenal carcinoid with cytoplasmic whorls of microfilaments . 235

BROOKS, R. E., BETZ, R. D. and MOORE, R. D., injury and repair of the lung: response to intravenous Freund's adjuvant 205

BUTLER, MURIEL and SMITH, BARBARA, the effects of long-term propranolol on the salivary glands and intestinal serosa of the mouse 185

CARSTENS, P. H. B. and BROGHAMER, W. L. JR., duodenal carcinoid with cytoplasmic whorls of microfilaments 235

CASLEY-SMITH, J. R., CLODIUS, L., FÖLDI-BÖRCSÖK, E., GRÜNTZIG, J. and FÖLDI, M., the effects of chronic cervical lymphostasis on regions drained by lymphatics and by prelymphatics . 13

CEDERHOLM-WILLIAMS, S., MISHLER, J. M., DARLEY, J. H. and WRIGHT, G., whole blood storage in citrate and phosphate solutions containing half-strength trisodium citrate: cellular and biochemical studies 125

CLODIUS, L., CASLEY-SMITH, J. R., FÖLDI-BÖRCSÖK, E., GRÜNTZIG, J. and FÖLDI, M., the effects of chronic cervical lymphostasis on regions drained by lymphatics and by prelymphatics . 13

DARBY, A. J., DISCHE, F. E. and HOWARD, E. R., malignant synovioma: electron microscopical findings in three patients and review of the literature . . 149
